

68-years of facilitating success with polymer shapes

**Westlake
plastics**
LIFE IN POLYMERS

Extrusion and
compression molding
of polymer stock
shapes since 1951

WESTLAKE PLASTICS is a
world leading manufacturer
in extrusion and compression
molding technologies
of high-performance
thermoplastics with facilities in
North America and Europe

**Westlake
plastics Europe**
LIFE IN POLYMERS

Distribution and
Machining of polymer
stock shapes since 1989

SLAB SHEET

0.250" TO 6"
(6.35 MM TO 152.4 MM)*

THIN SHEET

0.030" TO 0.250"
(0.76 MM TO 6.35 MM)*

AND UP TO 52"
(1321 MM) WIDE

EXTRUDED FILMS

0.002" TO 0.029"
(0.051 MM TO 0.737 MM)*

AND UP TO 27"
(686 MM) WIDE

EXTRUDED ROD

0.50" TO 15.0"
(12.7 MM TO 381 MM)*

We understand selecting a polymer can be challenging. We have categorized our standard products by attributes to enable an easy match between a specific product capabilities and your application's needs.

Product Development

We can facilitate your success by customizing a high performance shape that meets your application's critical needs, including:

New Color Development
Property Modification
Custom Sizes
New Shapes
Project Validation

We are here to facilitate your success. Contact us today!
